

Self Introduction

Hello, my name is Divya Tayade. I have completed my Bachelor of Computer Application in Information Technology from Moolji Jaitha College.

I am interested in software development and learning new technologies. I have knowledge of programming concepts and technologies like Python, HTML, CSS, and databases.

I am a quick learner and always ready to improve my skills through practical experience. My goal is to build a successful career in the IT industry.

Thank you for visiting my repository.
